# ASCERA

ASCERA™ has pioneered a superior vaping experience with FKM terpene-resistant gaskets, and a fully polished, never enameled zirconia ceramic post. This helps to ensure there is no chemical interference from the device, so that a full flavour experience is achieved.

ASCERA™ supports all major automation lines and offers OEM customization for its customers to build their brand around. Discover the difference vape hardware made for flavor can deliver.

## 510 Zirconia Ceramic Cartridge

### STANDARD FEATURES

- ZIRCONIA CERAMIC POST
- FKM ACID-RESISTANT GASKETS
- VISCOSITY VARIABLE COIL
- PRESSURE-FIT LID
- BOROSILICATE GLASS RESERVOIR
- COMPATIBLE WITH ALL MAJOR FILLING MACHINES

### STANDARD CONFIGURATION OPTIONS

0.5mL AND 1.0mL CARTRIDGE SIZE

FKM GASKET: WHITE OR BLACK

CERAMIC LID: WHITE OR BLACK  
(CUSTOM PANTONE AVAILABLE WITH MOQ)

LID SHAPE: DUCKBILL CONTOUR OR FLAT TIP

ZIRCONIA CERAMIC POST: WHITE OR BLACK

510 THREAD: STANDARD OR GOLD-PLATED

PATENTED TRIANGULAR APERTURE HOLES

# ASCERA

## Zirconia Ceramic Pod System

### STANDARD FEATURES

- ZIRCONIA CERAMIC POST
- FKM ACID-RESISTANT GASKET
- BOROSILICATE GLASS RESERVOIR
- RESERVOIR VIEWING WINDOW
- TEXTURED EXTERIOR
- BUTTON OR DRAW ACTIVATED
- UBC-C CHARGING PORT
- MAGNETIC POD CONNECTION
- VARIABLE VOLTAGE SETTINGS
- 1.0mL CAPACITY

### STANDARD CONFIGURATION OPTIONS

- ZIRCONIA CERAMIC POST: WHITE OR BLACK
- FKM GASKET: WHITE OR BLACK
- PLASTIC MOUTHPIECE: WHITE OR BLACK  
(CUSTOM PANTONE AVAILABLE WITH MOQ)
- TEXTURED EXTERIOR: WHITE OR BLACK  
(CUSTOM PANTONE AVAILABLE WITH MOQ)

# ASCERA

## Voltair Battery

The ASCERA Voltair is equipped with a 370mAh rechargeable battery capable of 5 different heating settings:

Pre-heating 1.5V for an automatic 10seconds

- White 1.8V
- Green 2.2V
- Blue 2.6V
- Red 3.0V

### STANDARD FEATURES

RIGID STEEL TUBE BODY COATED IN RUBBER FOR INSULATION AND GRIP COMFORT

510 THREAD

MICRO-USB CHARGING PORT

LED INDICATOR

OVERUSE PROTECTION

WHITE OR BLACK EXTERIOR  
(CUSTOM PANTONE AVAILABLE WITH MOQ)

*\* FOR BEST RESULTS PAIR WITH ASCERA HARDWARE*

As operators, owners, and investors, AVEO's management team has worked in the distribution, cultivation and extraction sectors of the cannabis industry since 2014. AVEO has produced over 40 million 510 vape cartridges, establishing unparalleled QA/QC processes and production efficiencies in the process.

Localized UV printing capabilities allow for 7-day turnaround on custom orders, and AVEO is compatible with all major automation technologies.

## UrthC

### CERAMIC CORE TECH

UrthC's Burn Control Ceramic Core formula prevents overheating, preserving oils for a smooth, flavorful, and safe vaping experience without compromising cloud production

### BIODEGRADABLE HEMP PLASTIC

- Reduced battery cell - minimizes the usage of lithium
- Complete decomposition in approximately 1,100 days (a bit more than 3 years)
- No PCB (printed circuit board)

### STANDARD FEATURES

- PROPRIETARY AVEO ATOMIZER
- LOCKING PRESS-FIT AND PATENT-PENDING UNLOCKING MOUTHPIECE
- ECO-FRIENDLY HEMP-BASED SHELL
- USB-C CHARGE PORT
- TOP LOADING, COMPATIBLE WITH MAJOR FILLING MACHINES
- DESIGNED FOR MASS FILLING AND MASS CAPPING
- TAMPER-PROOF
- 1.7MM APERTURE FOR VARIOUS OIL VISCOSITIES
- 1.0mL CAPACITY
- WINDOW COMPATIBLE WITH 0.3mL, 0.5mL AND 1.0mL OIL
- OPENING SPACE ALLOWS DOWN TO 14 GAUGE NEEDLE ( $\Phi$  1.83MM)

## Pulse Battery

The AVEO Pulse is equipped with a 320mAh rechargeable battery capable of 3 different heating settings:

- Blue 2.6V
- Yellow 3.0V
- Red 3.4V

### STANDARD FEATURES

- 510 THREAD
- USB-C CHARGING PORT
- LED INDICATOR
- LOW BATTERY NOTIFICATION;
- CHARGING INDICATION
- SHORT-CIRCUIT PROTECTION
- OVERUSE AND OVERCHARGE PROTECTION

## Specialty Cones

### STRAIGHT 84/26

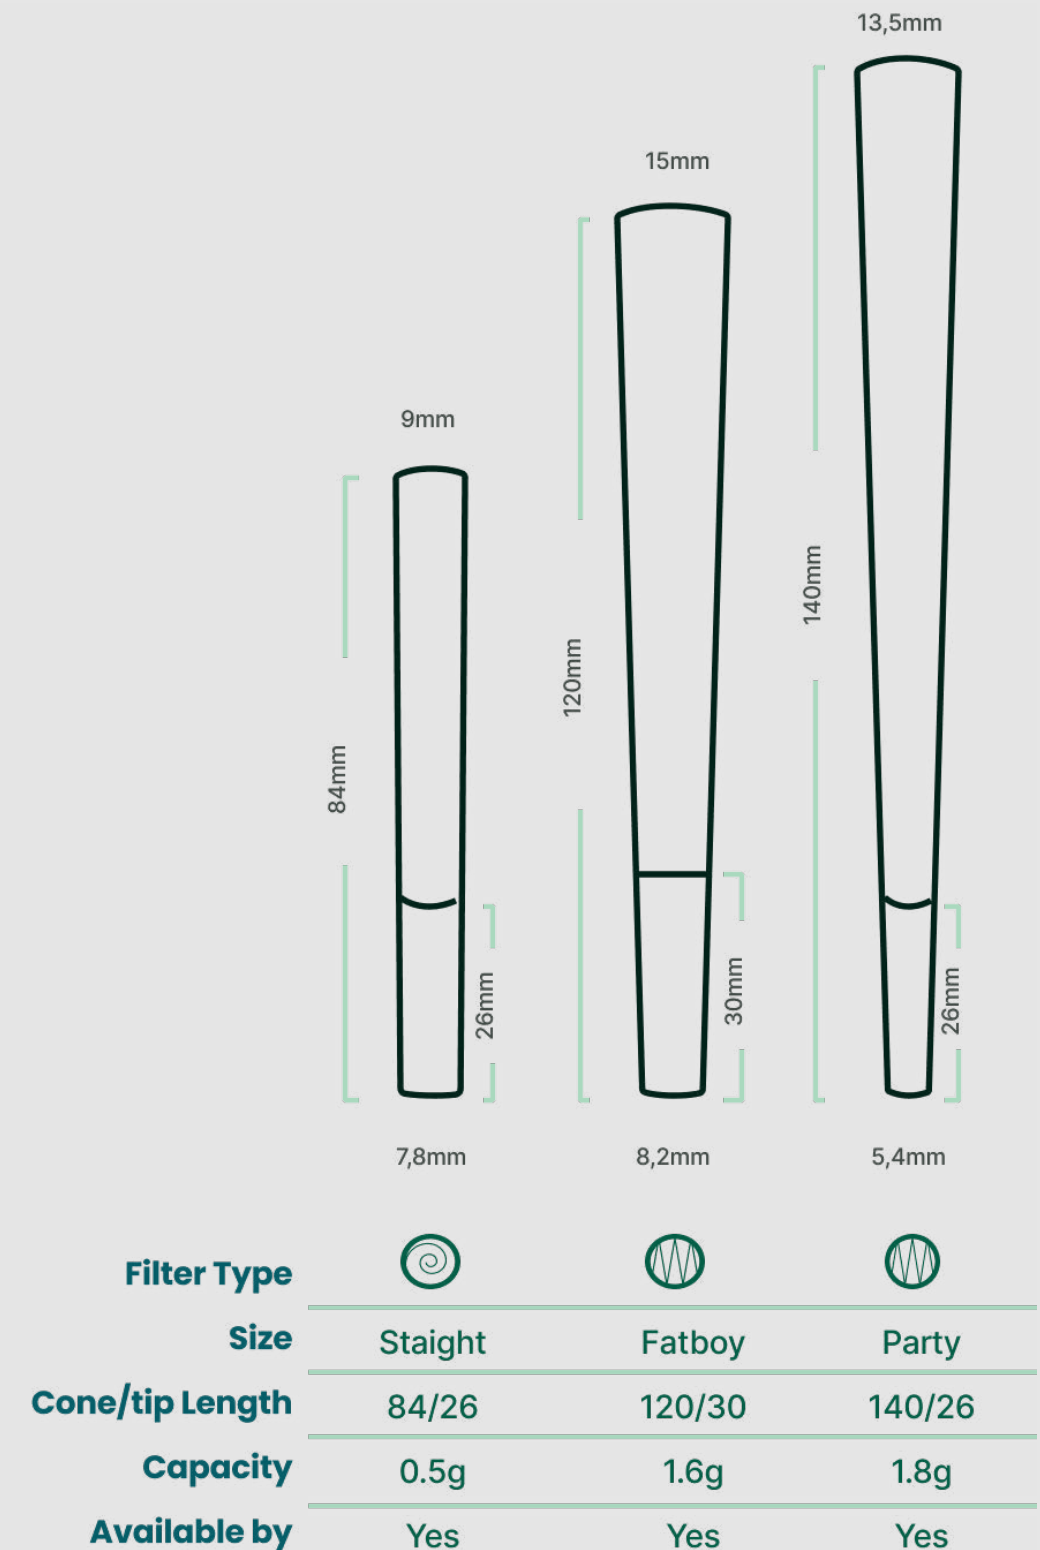

The Straight was originally created for the CBD aficionados. With a capacity of 0.5g, these pre-rolls are discrete and ideal for daytime use, designed to perfection with an invisible 1-degree angle

### FATBOY 120/30

The Fatboy is the perfect cone to produce strong connoisseur infused pre-rolls. With a capacity of 1.6g, this fat slow-burning joint is a consumer favorite

### PARTY 140/26

Best shared, this cone can be supercharged with 1.8g of your best flower
